- 15) Receipt of response dated 4-2-98 is acknowledged.
- 16) The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 17) Claims 1-28 are rejected under 35 U.S.C. 103(a) as being unpatentable over Dennick.

Claims read on intermediate release nicotinic acid formulations for oral administration in treating hyperlipidemia.

Dennick, teaches a nicotinic acid formulation suitable for oral administration (col. 3, L. 17-20, 40-55), and in Tablet form (col. 3, L. 57).

It would have been obvious to one of ordinary skill in the art at the time of the invention to use the teachings of Dennick, who teaches nicotinic acid for lowering serum cholesterol.

The intended purpose is to provide intermediate release nicotinic acid formulations for oral administration for treating hyperlipidemia.

No claim is allowed.
